

Ignite My Heart

Ignite my heart as I spend time with You
In the place where no one sees
Keep me close as You show me Your face
Lord I seek to know You more and more

God I meet with you right now
In this quiet place somehow
Bring Your peace and show me Your will
Lord reveal Your heart to me
Make me all that I can be
To show Your love
To a broken world in need

Ignite my heart as I spend time with You
In the place where no one sees
Keep me close as You show me Your face
Lord I seek to know You more and more

God I meet with you right now
In this quiet place somehow
Bring Your peace and show me Your will
Lord reveal Your heart to me
Make me all that I can be
To show Your love
To a broken world in need

Ignite my heart as I spend time with You
In the place where no one sees
Keep me close as You show me Your face
Lord I seek to know You more and more

Ignite my heart as I spend time with You
In the place where no one sees
Keep me close as You show me Your face
Lord I seek to know You more and more

Lord I seek to know You more and more
Lord I seek to know You more and more
